ABOUT RTM

Established in 2011, after more than 10 years of development, RTM now has three ISO9001 certified factories, mainly dedicated to the production and sales of MAPP welding gas, refrigerant gas, daily chemical consumer goods and refrigeration tools.

RTM - Milestone

NINGBO YIHE REFRIGERATION
EQUIPMENT (RTM)

2011

- RTM International Sales office
- Ningbo Operation Center

Xiangshan Changyu
Tools
(Hardware workshop)

2012

- Focus on Brazing and Refrigeration tools
- Torch:450K/Year
- Certificates:ISO9001, CE ,CAS

Ningbo D&H Machinery
1st cylinder factory by RTM

2017

- Focus on Cylinder production
- Cylinder:6M/Year
- Certificates: DOT-39, EN ISO11118, ISO9001

YongAn Gas Co.,Ltd
Gas plant & 2nd cylinder factory
of RTM

2020

- Focus on Cylinder and Gas production
- Cylinder:6M/Year
- Gases:20000 Tons/Year
- Certificates: DOT-39, EN ISO11118, ISO9001

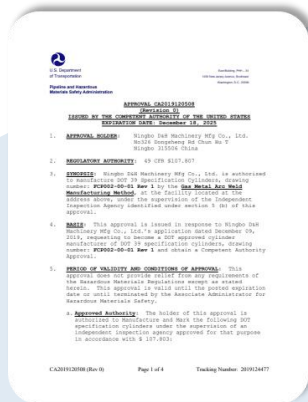

Yong An Gas USA
1st abroad office &
warehouse of RTM

2021

- Local sales, distribution and after-sales service of MAPP gas, torches and other products in North America.

Honors, patents and certificates

- RTM insists to build up the reputation and competitiveness quality in the world by technological advancement and high product.
- The company has 17 patents, including 13 utility innovation and 4 invention patents.
- In 2023, YongAn Gas Co.Ltd was recognized as scientific and technological innovative enterprise in Zhejiang Province.

17 Patents
owned

Plant

cylinder

1.produce

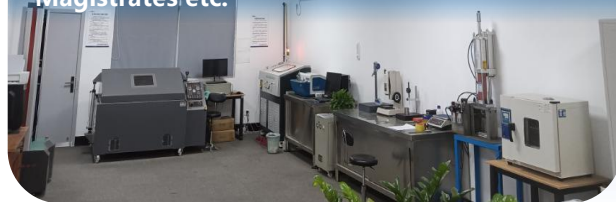

300 tons Automatic stamping and drawing machine. 20k/pcs per day

Automatic assemble line. Ensure consistent quality

2.assemble

Laboratory is equipped advanced equipments : The direct reading spectrometer comes from Italy GNR, Hydrostatic testing system from Magistrates etc.

3.test

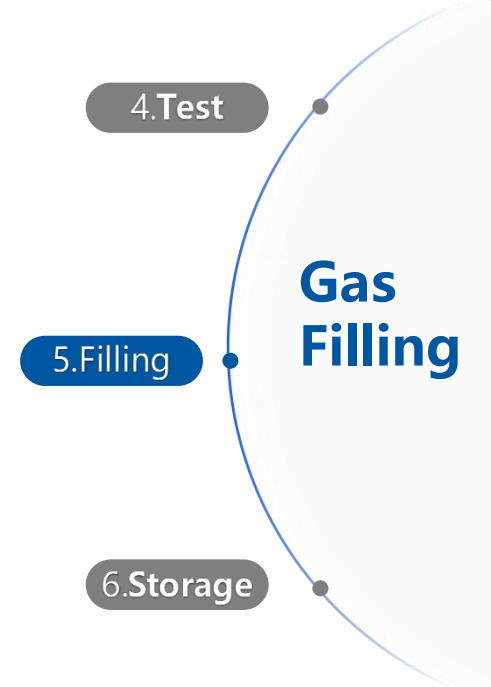

Automatic power coating line. Various colors available

All parts are produced in-house to ensure full quality control

Multiple process inspections are carried out on each step and quality is monitored by a traceable system

Intelligent DCS and laboratory to ensure product quality and production safety.

Automated assembly line is applied to ensure an efficient production.

Advantages of production management

- Professional production team: 30 technicians, 10 engineers and 7 R&D stuff.
- 200 workers are assigned to various production workshops.
- ISO9001 quality system certification

high quality production requirements

Certificated by DOT39 / EN11118 / REACH / CSA. High-end equipments are applied to ensure product quality. At present, our equipment and instruments are mainly sourced from: Agilent, Metrohm, Mettler-Toledo, Honeywell, Vaisala VAISALA, Magthwaite, etc.

Key competitiveness

Supply Chain Assurance

- 1-The only factory in China that has a complete industrial chain of cylinder production and gas filling.
- 2- Targets Flammable warehouse 2800sm
- 3- Stable production capacity and delivery capacity, based on 2 steel cylinder factories and 1 complete gas filling station, annual production of 12 million steel cylinders and 20,000 tons of various fuel gas and refrigerant.
- 4-Experienced logistics operations to ensure timely boarding of goods--the government has very strict supervision on DG goods

The image features a low-angle shot of several tall, white industrial storage tanks against a clear blue sky. The tanks are equipped with red safety railings and ladders. In the foreground, a portion of a metal structure, possibly a walkway or platform, is visible. The entire image is overlaid with a semi-transparent blue filter. Large, light-blue concentric circles are positioned in the top-left and bottom-right corners, framing the central scene. The word "Product" is written in a bold, white, sans-serif font, centered horizontally and partially overlapping the tanks.

Prospect

Focusing on the chemical industry, with the capacity expansion of the new plant in Quzhou YongAn, we will continue to

- Consolidate our basic advantages in new welding gases and refrigerants
- Focus on the development of product extensions for other chemical gas.
- Accelerate R&D and deploy chemical gas in consumer products.

The image features a low-angle shot of several tall, white industrial storage tanks against a clear blue sky. The tanks are equipped with red safety railings and ladders. In the foreground, a portion of a metal structure, possibly a walkway or platform, is visible. The entire image is overlaid with a semi-transparent blue filter. Large, light-blue concentric circles are positioned in the top-left and bottom-right corners. The word "THANKS" is centered in a bold, white, sans-serif font.
